SHADMAN SHAKIB

AI/ML Engineer • Full-Stack Developer • Computer Vision Researcher

- **Address:** Bosundhora (C Block), 1229, Dhaka, Bangladesh
- **Mail:** nihanshadman1@gmail.com | **Phone:** (+880) 1903305579
- **LinkedIn:** https://www.linkedin.com/in/shadman-shakib-39a55a30b

PROFESSIONAL SUMMARY

AI/ML-focused Computer Science graduate (AIUB) who ships end-to-end — from deep learning research (PyTorch, computer vision, synthetic media detection) to production systems (FastAPI, Docker, Laravel/Vue). Experienced with LLM applications (LangChain, RAG, prompt engineering). Seeking Full-Stack Development, AI Engineering, or Computer Vision roles where research and shipped code meet.

TECHNICAL SKILLS

Programming Languages: Python, R, C++, PHP, JavaScript

AI / Machine Learning: PyTorch, TensorFlow, Scikit-learn, CNNs, Classification, Regression, Clustering

LLMs & Generative AI: LangChain, RAG (Retrieval-Augmented Generation), Prompt Engineering, Fine-tuning, LLM APIs

Data Science: NumPy, Pandas, Matplotlib, Seaborn, Statistical Modeling, Data Visualization

Web Development: Laravel, Vue.js, Inertia.js, React, Next.js, Node.js, Nest.js, FastAPI, REST APIs

Databases: PostgreSQL, MySQL, SQLite, SQL

Tools & DevOps: Git, GitHub, Docker, Linux, n8n

CERTIFICATIONS & TRAINING

AI Engineering Bootcamp

Ostad

- Completed an intensive bootcamp covering LLMs, RAG pipelines, model fine-tuning, and production AI deployment.

EXPERIENCE

Laravel Developer Intern

Skylark Soft Limited | June 8, 2026 – September 3, 2026

- Developed and maintained web applications using **Laravel, PHP, MySQL, Vue.js, and Inertia.js**.
- Implemented features, fixed bugs, and worked with database and API integration.

PROJECTS

DAVID-Net: Multimodal Synthetic Media Detection | AI/ML Research Project

- Developed a multimodal deep learning framework to detect manipulated audio and video.
- Integrated VideoMAE and WavLM for visual and audio authenticity analysis.
- Implemented four-way classification and audio-video synchronization analysis.
- Achieved **0.984 clip-level AUC** and **5.14% EER** (reported results).

Achievement: Best Thesis Poster Award.

LinkedIn Post Agent – AI Content Generation Tool

An AI agent using LangChain and LLM chains that generates professional, structured LinkedIn posts (hook, value, CTA) from a user-given topic, tone, and language.

- Designed a CLI-based Python application with configurable language and tone parameters, defaulting to English when unspecified.
- Tech Stack: Python, LangChain, LLM APIs, python-dotenv.

GitHub: https://github.com/Shadman-Shakib-Nihan/LinkedIN_post_Agent.git

Heart Disease Prediction API

Built and deployed a FastAPI service predicting heart disease from a trained scikit-learn model, containerized with Docker and hosted live on Render.

- REST endpoints (/health, /info, /predict) with Pydantic validation and probability-based output.
- Tech Stack: Python, FastAPI, scikit-learn, Docker, Redis.

Live Demo: https://heart-deseasemodel-fast-api.onrender.com

EDUCATION

BSc in Computer Science and Engineering *Jan 23 - Sep 26*

American International University-Bangladesh (AIUB) | Dhaka, Bangladesh

- ***GPA:*** 3.72 / 4.00
- ***Thesis:*** A Unified Forensic Framework for the Detection of Multimodal Synthetic Media: Identifying Artifacts in Deepfakes and Generative AI Content
- ***Honors:*** Dean's List | Gold Award – The Duke of Edinburgh's Award (through AIUB) | Best Thesis Poster Award (AI/ML Optimisation)

HSC – Science *Passing Year: 2021*

Govt. Ashek Mahmud College | Jamalpur, Bangladesh

GPA: 4.83 / 5.00

SSC – Science *Passing Year: 2019*

Jamalpur Zila School | Jamalpur, Bangladesh

GPA: 4.50 / 5.00

LANGUAGES

Bengali (Native) **English** (Professional)
